**First Virtual Microbrewery to Host *Rare Wildlife Revealed*
Wildlife Art Exhibition on March 23 at Flying Fish Brewing
Company in Somerdale**

The event will feature a silent auction, wildlife art, specially brewed beer and limited-edition pint glasses

Somerdale, NJ – The nonprofit Conserve Wildlife Foundation of New Jersey (CWF) will present their *Rare Wildlife Revealed: The James Fiorentino Traveling Art Exhibition* on Thursday, March 23 at the Flying Fish Brewing Company in Somerdale, New Jersey. The event will also include a silent auction and a live bird of prey.

Flying Fish Brewing Company has a state-of-the-art brewery that is the most sustainable in the region. They are successful in their mission not only to brew a fantastic beer, but to brew beer in the most environmentally friendly way possible.

Flying Fish now produces a range of beers year-round, along with a variety of seasonal specialties. The Tasting Room, open Wednesday-Sunday features 15 taps and weekly one-off and barrel aged beers. Flying Fish beers are ten-time medal winners at the Great American Beer Festival, the most of any New Jersey brewery

Event is sponsored by Flying Fish Brewing Company.

###

Conserve Wildlife Foundation of New Jersey has worked to protect rare wildlife in New Jersey and beyond for over two decades. CWF biologists and educators utilize field science, habitat restoration, environmental education, public engagement, and volunteer stewardship to ensure our most vulnerable wildlife species can continue to call New Jersey home. Our dedicated and innovative scientists have helped many species recover and thrive again in our densely populated state.

CWF's wildlife webcams, Story Maps, live webcasts, and e-books help bring wildlife directly to the screens of tens of thousands of people, while our public events and volunteer projects give people of all generations the opportunity to experience the wonders of wildlife up close. Our educators utilize art and essay contests, educational field trips, summer camps, afterschool programs, technology initiatives, classroom presentations, and wildlife-based curriculum and lesson plans that meet the latest educational standards in helping kids grow in STEAM - or Science, Technology, Engineering, Art, and Mathematics. More information can be found at www.ConserveWildlifeNJ.org.
